Parky's People

Michael Parkinson : Parky's People before purchasing it in order to gage whether or not it would be worth my time, and all praised Parky's People:

I thought it would be Parky's behind the interview story's and how he found the celebs, instead it was basically a copy of each interview he did. You could just watch the stuff on you tube if you wanted. I like Michael Parkinson but the book was a let down.

This book has around 50 people that 'parky' has interviewed. each person has their own chapter. I found it very very enjoyable. I like reading interviews, you feel like you know the person so much more by the end of it. There are some really really good interviews in this book and some average ones. I read them all, over a period of a few months, but more importantly i read interviews with people i have never heard of and it led me to more interesting books. thank you parky, you are a living legend!!!

Michael Parkinson occupies a unique place in the public consciousness. Through his perceptive onscreen interviews over the past five decades, he has introduced millions of people to the personalities of major international figures in sport, showbiz, politics, the arts and journalism. In Parky's People, Parkinson sets down on record the highlights of his interviews which provide an intimate insight into the private lives and personal characters of great celebrities from around the world, from Tony Blair and Henry Kissinger, John Betjeman and WH Auden, to Ken Dodd and Elton John. Now an international celebrity himself, the man from a humble but colourful Yorkshire mining family has teased the secrets out of even the most reticent star guests, such as Fred Astaire and Ingrid Bergman, and he has drawn fascinating new information and insights from even the most frequently interviewed subjects like Peter Ustinov, David Niven and Stephen Fry. Remarkable interviews with Edith Evans and Ben Travers demonstrate that Parkinson's empathy with the old is as evident as his easy familiarity with sportsmen like George Best, Muhammad Ali and David Beckham. Great comics such as Billy Connolly, Bob Hope, and Morecambe and Wise prove as funny on the page as on screen and it seems that the star of every Hollywood legend shines brightly under Parkinson's subtle questioning.

With a little help from his friends, Parky's People is witty, always perceptive, often wise, and never less than compulsive reading.

About the Author Michael Parkinson is not only a legendary TV and radio presenter, both in the UK and Australia, but an award-winning journalist. In 2007 he announced his retirement from his ITV chat show, but will continue his involvement with TV and radio.
