Pinball Snapshots: Air Aces to Xenon

Marco Rossignoli : Pinball Snapshots: Air Aces to Xenon before purchasing it in order to gage whether or not it would be worth my time, and all praised Pinball Snapshots: Air Aces to Xenon:

2 of 2 people found the following review helpful. good addition to any pinball collectionBy bucaneroIf you're a hardcore pinball collector, then you already know everything that will be shown on these books, but in any case it's great to have them around, and make them available to the guests.0 of 0 people found the following review helpful. but also useful information about eachBy 55FordBrings back memories of mine , but also useful information about each machine

Timeless in their appeal, pinball games have entertained and tested the skills of players worldwide for many generations. Pinballs combine the unpredictability of a rolling, bouncing silver ball with some of the most amazing commercial artwork and the most up-to-date technological advancements. Here is a book that celebrates what is known to many enthusiasts as "the lure of the silverball." Fifty diverse pinballs, both vintage and contemporary, are showcased. Each has its own chapter outlining the game\s special features, historical background, game trivia, game

rules, graphic images, collectibility, and current value. Over 500 amazing full color photographs give the reader a complete visual of each game. Whole machine shots, close-ups of backglasses and playfields, and ball\s-eye-view images all put enthusiasts right into the action. This outstanding book will be thoroughly enjoyed by pinball collectors, historians, graphic artists, and devotees of coin operated amusement games.

About the AuthorMarco Rossignoli has been an avid pinball player since the late 1970s. Also the author of The Complete Pinball Book and Pinball Memories, he resides in Newcastle, Australia. Graham McGuiness began playing pinball at age four and has been an enthusiast ever since. He now spends much of his time repairing and restoring pinball and bingo machines around Newcastle, Australia.
