Pipesmoking: A 21st Century Guide

Richard Carleton Hacker : Pipesmoking: A 21st Century Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Pipesmoking: A 21st Century Guide:

The author who reintroduced America to pipesmoking has done it again with his newest book. The 165-page softcover contains over 90 never before-seen color and black white photographs with chapters on pipemaking, buying, smoking (including a step-by-step guide to lighting up), tobaccos, and a "Tobacco Taster's Menu of Blends," describing over

100 commercially available pipe blends. There is even a Pipesmoker's Sourcebook with publications and organizations.
