Porcelain Repair and Restoration

Nigel Williams : Porcelain Repair and Restoration before purchasing it in order to gage whether or not it would be worth my time, and all praised Porcelain Repair and Restoration:

3 of 3 people found the following review helpful. Not for the noviceBy janee"This book is not for the beginner - wordy - could have used more pictures as examples. There are some good tips though and was well worth my money. Hopefully I will be able to do simple repairs. Lots of products I have never heard of and probably won't be able to get locally and will have to order everything. Would have preferred a nice list of supplies needed or required. Still reading and haven't tried any repairing as of yet.0 of 0 people found the following review helpful. ... audience which makes sources of repair materials not very useful. Did get some tips about repair in general ...By Donald A CAhillThe book is geared to a UK audience which makes sources of repair materials not very useful. Did get some tips about repair in

general from it..0 of 0 people found the following review helpful. Five StarsBy CustomerExcellent book to learn how to repair porcelain

Porcelain Repair and Restoration is a practical handbook for those interested in repairing or restoring prized pieces of porcelain. Revised, updated, and redesigned, the book explains simply, step by step, how to achieve excellent results with a variety of techniques. Restorers are introduced to the many options available and encouraged to discover which techniques suit their individual circumstances. With knowledgeable advice on the most up-to-date materials, this practical handbook will be a useful reference for experienced professional restorers and amateurs alike. Each stage in the process of repairing and restoring porcelain is illustrated with photographs and explanatory line drawings and diagrams that show the functions and uses of specialist tools. Williams concludes this edition with a glossary and a comprehensive guide to materials, manufacturers, and suppliers, as well as helpful information on how to set up a workshop.

About the AuthorNigel Williams was Head of the Ceramics and Glass Section in the Department of Conservation at the British Museum.
