Melly Nofal : The Watch Keeper before purchasing it in order to gage whether or not it would be worth my time, and all praised The Watch Keeper:

Always make "time" to do things right with the help of this watch collector's journal!By Laura T.If it's unthinkable to you to leave your house without your watch on, and you plan your outfit around the watch you want to wear and not the other way around, then you and I have a lot in common (I both

celebrate and pity you!). Something else we may share is a healthy watch collection. Of course, like any obsession, I didn't start out with the intention of curating so many brands and styles of time pieces. It just developed organically. I know my inauguration into the world of watch fixation would have been better served, insofar as keeping track of the specifications for each, had I possessed Melly Nofal's "The Watch Keeper". Ms. Nofal, like us, has a passion for timekeeping, so like the character in her "Bloodline of the Dragon" series, it's obvious this watch keeping log could only come from the mind of one preoccupied with the art of horology. Once you open the pages of this journal, you'll know only a fellow watch collector could have created it, because it sublimely offers a way to organize all of your treasured pieces. At the beginning of the book, there is a quick introduction that the experienced and novice collectors, alike, will appreciate, as well as suggestions on how best to catalog your collection. What I like the most is the sample entry provided to give each collector an idea of what to record and how to personalize each notation. This book made a great stocking stuffer for my husband this past holiday season, because one of the reasons I married him, besides being handsome, funny, intelligent, kind, blah, blah, blah, was because we encourage each other to feed our natural (or unnatural) mania for all things watch related. Wanting to continue this tradition, for my niece's upcoming birthday, I plan on giving her a beautiful watch with this companion diary, and the first book in the "Bloodline of the Dragon" trilogy, to send her down the path of no return (I know she'll love it, but my big brother may not thank me for inspiring this new-found hobby, that he, no doubt, will need to finance for a few more years. Perhaps, he shouldn't have given me so many noogies as a child. What is it they say about payback?). Additionally, I'll complete the first entry for her and provide watch term definitions in the log (this is just one more way to customize this reference to meet individual needs). Thank you, Ms. Nofal, for understanding the thrill of the hunt and for creating a tool that supports this wholesome addiction.0 of 0 people found the following review helpful.
