Features 30 projects that comprise the work on thick 'n thin weaves. This book is the second in a series of articles and projects from Weaver's Magazine.

From the Publisher Madelyn van der Hoogt first learned to weave on a backstrap loom in Guatemala. From that introduction grew a passion for textiles, weaving, and looms. Currently the editor of *Handwoven*, she was editor of *Weaver's* magazine from 1986 to 1999 and is the author of *The Complete Book of Drafting* and the editor of *The Best of Weaver's* series. She operates the Weavers' School in Coupeville, Washington, and teaches workshops in weave structures throughout the US and Canada. As an editor, she brings to each book a thorough understanding of the subject and a teacher's drive to make every word clearly understandable.
