**Ruth Hemminger : Tiffin Glass 1940-1980: Figurals, Paperweights, PRESSED Ware (Schiffer Book for Collectors)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tiffin Glass 1940-1980: Figurals, Paperweights, PRESSED Ware (Schiffer Book for Collectors):

This companion volume to other books on Tiffin Glass by this authoritative team offers important information on Tiffin's pressed ware. It includes a color identification guide, nearly 500 archival and color photos and catalog pages, detailed captions, and a price guide. Vases, bowls, candlesticks, and ashtrays are shown in many colors and styles in addition to the popular figurals and paperweights produced by Tiffin Glass. This volume is a must for collectors and dealers of Tiffin and 20th century American glass.

About the Author Ruth Hemminger and Ed Goshe, of Tiffin, Ohio, are active in the Tiffin Museum and Collectors Society. Leslie Pina, Ph.D., has written and co-authored many books on 20th century glass and decorative arts, including three on Tiffin Glass with Ruth and Ed.
