Timeless Interiors: Rooms Inspired by the Past

Barbara Stoeltie : Timeless Interiors: Rooms Inspired by the Past before purchasing it in order to gage whether or not it would be worth my time, and all praised Timeless Interiors: Rooms Inspired by the Past:

1 of 1 people found the following review helpful. A disappointment from a great team...By Michele S.Even though the Stoelties are at the upper eschelons of interiors publishing this book's lack of text and use of often seen photos made for a huge disappointment from a blogosphere recommended book. I got the impression that many of the photos may have been "leftovers" from other shoots. Bought used, it took me less than an hour to go through the entire book.5 of 9 people found the following review helpful. Pretty picturesBy LesThe photographs in this book are stunning. However, if you're looking for decorating or design ideas this is not the book for you. There are virtually no practical ideas included -- it's more of a conceptual work.

Timeless Interiors is about capturing the romance of the past without throwing away your washing machine and living in an old fashioned way. Primarily an inspirational source book, it shows how to recreate the tricks designers use: she

shows why a room looks romantic and how to get that effect through colors, paint, wallpaper, flower arrangements or still-lives on a shelf. The opening chapter of the book is a detailed story of the featured houses. The following sections are divided room by room: halls, sitting rooms, studies, bathrooms, bedrooms, kitchens and dining rooms. The creators of these interiors are not all designers by trade, but with imagination they have created an individual and romantic style of their own.

I have nothing but praise for both Barbara's writing skills and Rene's photography. They are brilliant at finding interesting places to photograph. -- Min Hogg World of Interiors
About the Author Barbara Stoeltie and her husband Rene Stoeltie are regular contributors to magazines including World of Interiors. Image (c) Aaron Hawks
Rene Stoeltie's interiors have been featured in Decoration Internationale and his photographic work has appeared in magazines all over the world, including The World of Interiors, House and Garden, Elle, Country Homes and Interiors, Harper's Bazaar, Classic Homes and La Maison de Marie-Claire.
