## **Tops with a Twist**

**PieceWork Magazine : Tops with a Twist** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tops with a Twist:

Out of 18 patterns, only about 3-4 are interesting or unusual enough to want to knit as written. Some of the patterns have some elements that can be incorporated into other hats, but as hats in this book they are boring. Homespun, Handknit by Linda Ligon has better hats, imho. I expected more from this book. Maybe what they should have done is had a contest for the best spun yarn (since this was from Spin-Off magazine), and had other knitters do the hat designs. Or maybe the really good and unusual patterns were reserved for another use--like future magazine projects. I'm keeping it, but glad I bought it at the .com price and not the full price.

great!

From fun and funky to seriously warm and comfortable, the caps, 17 knitted and one crocheted, in this delightful collection offer something for knitters of all levels of experience and of every fashion sensibility.
