Traditional Weavers of Guatemala: Their Stories, Their Lives

Deborah Chandler, Teresa Cordn : Traditional Weavers of Guatemala: Their Stories, Their Lives before purchasing it in order to gage whether or not it would be worth my time, and all praised Traditional Weavers of Guatemala: Their Stories, Their Lives:

3 of 3 people found the following review helpful. A moving story of traditional textile artisans with stunning photosBy ChataI have just finished my third reading of this beautiful book. The first reading was to devour the stunning photos and breeze through the stories of 20 traditional artisans, reading for story line. The second reading was to slowly savor the beauty of Guatemala, of the artisans and of the textiles so clearly captured in Joe Coca's photos that fill this book. I read to deeply feel and let myself be moved by the sensitively told stories of people's lives and their crafts as shared with the authors, Guatemalan Teresa Cordn and weaver Deborah Chandler.In between and ongoing I've taken the buffet approach; I flip through the book only looking for photos of working hands, or faces, or landscape, or a certain textile technique. With a more careful reading of the text and ongoing examination of the pictures I am understanding many things about the textiles and the weavers that I missed the first time. It is a book to be savored.Between the stories of the artisans are very helpful sidebars about Guatemalan cultures and history. The book designer should be credited too because the photo layout and sidebars complement and help clarify the stories. There are thoughtful little touches like the end pages with glossary and index printed on paper of a slightly different colored so they can be found quickly.This beautiful book will bring pleasure to anyone who loves Guatemala, or traditional textiles, or beautiful photos, or preservation of diverse cultures.4 of 4 people found the following review helpful. Stunning portrayal of Guatemalan craftspeopleBy Diane B.This is a book that will remain a treasured part of my library. Though their words and pictures authors Deborah Chandler and Teresa Cordon and photographer Joe Coca not only stunningly portray 20

Guatemalan artists, but in so doing teach us not only about Mayan and Guatemalan history and culture, but also about the technicalities of weaving, spinning, embroidery and basketmaking, all in terms understandable to the lay person.

The glossary was also very useful. The lives and aspirations of these women and men will stay with me for a long time. The artists have managed to overcome so much to create such elegant beauty. I've already given two copies of this book as gifts and I'm sure I will continue to have it as a favorite gift item for a long time to come. I also found it very useful to read before my upcoming trip to Guatemala so that I can become a more educated consumer of textiles when I am there. 2 of 2 people found the following review helpful. An inspiration to all By Terry D. This book is an inspiration to all weavers. The lives of the artists featured are intertwined with the fiber arts they practice; the fact that they continue to weave, spin and embroider is a gift to humanity for preserving these techniques, considering the incredible conditions in which they live and the horrors they suffered from past brutal conflicts. Non-weavers will appreciate the remarkable history of these men and women. The book is well written with compassion while celebrating the beauty of the people and their work; the authors are knowledgeable of work, the people and the country. The photography is stunning.

Against the backdrop of Guatemala, this book presents portraits of artisans working in the ancient traditions of the Maya paired with insights into the creation of the textiles and the events that have affected their work. Weaving, spinning, and basket making have sustained the Maya economically and culturally against the pressures of change and a 36-year civil war that decimated their population. Their persistence in continuing traditional art has created some of the loveliest, most colorful textiles the world has ever known. Artisans share their personal histories, hopes, and dreams along with the products of their hands and looms. Their stories show determination in the face of unimaginable loss and hardship which instill an appreciation for the textiles themselves and for the strong people who create them.

In *Traditional Weavers of Guatemala*, the authors present a sensitive, detailed, and much-needed holistic interpretation of how textiles and life inseparably intertwine. Mary A. Littrell, co-author, *Artisans and Fair Trade*
