KonopkaMy wife has been bugging me for a long time to get rid of a lot of old things in our basement and attic, and, being a lazy guy, I've been putting it off by telling her I'm waiting to sell some of it for cash. She saw an ad for this book in the local newspaper, and told me to buy it, thus calling my bluff. Actually, I'm happy that I did, for the book is a cornucopia of information about potential buyers for a myriad of things you may find around your house. There's an excellent 20 page introduction, and an extensive index for the various items that may be of interest to dealers, and individuals. I'm putting off the day of reckoning by telling my wife I must study this book intently, but already I've found one thing that I considered junk, which may be valuable to someone: my 1964 presidential campaign can that once contained 12 ounces of "Gold Water; the right drink for the conservative taste". CollectorsBy HoneyIf you have a collection of things you're not sure what to do with, this is a great book. I have lots of "treasures" handed down from parents, grandparents, aunts, uncles etc. Some with sentimental values, some just cute. After awhile they become dust collectors, so I have given many things away or donated them. Now to find out that most of it was worth more than I would ever have dreamt. Glad I bought this book, now maybe I can sell this stuff rather than giving it away.

A guide to selling antiques and collectibles shows readers where to sell items in more than two thousand categories and offers tips on identifying things of value.
