It isn't what I expectedBy A CustomerLooks like a nice collection of photocopied Sears catalogs from many years ago, but contains little info on trunks or bags, who made them, etc. Claims to be a price guide but actually lists just a few prices for items, and, in my opinion, the prices were pretty far off from what I've seen in shops.2 of 2 people found the following review helpful. Not worth buying.By Derek GreenfieldI wish I had read previous reviews before I purchased this item.Some nice photo copies from old catalogs but no information concerning manufacture, history, condition, etc. The "Price Guide" consisted of one page with a broad disclaimer and some pricing I could have guessed at my self.Not worth the money.0 of 1 people found the following review helpful. Restore your antiques.By Roger SessomInteresting!

The variety of packing trunks and carrying bags for salesmen, tradesmen, bankers, doctors, and travelers that are shown here will astound you. Whether of light or heavy weight, large or small size, and specific or general purpose, they all were made with a job in mind. Taken from the pages of sales catalogs of the 1890s, these illustrations are advertising pieces to the new mail-order business. They evoke the time when objects were made to last forever, and today there are trunks and bags of these types available in the antiques market. The Price Guide reflects what their values are today.

About the AuthorRoseann Ettinger is fascinated with the history of fashion; she owns Remember When, a vintage clothing store in Hazleton, Pennsylvania, and has written many books on twentieth century clothes and jewelry.
