Twelve Tiffany Bookmarks (Dover Bookmarks)

Louis Comfort Tiffany : Twelve Tiffany Bookmarks (Dover Bookmarks) before purchasing it in order to gage whether or not it would be worth my time, and all praised Twelve Tiffany Bookmarks (Dover Bookmarks):

Beautiful, colorful, creative, inspirational, sturdy card stock and vibrant vivid colors.By MrganI ordered these for myself; mistaking them book markers that could be colored. Despite my mistake, I'm keeping them as the colors are so vivid and beautiful that I can't possibly give them up. Anyone who loves Tiffany glass would really appreciate these. The book they come in is smaller than I was expecting (I need to start paying more attention to descriptions before ordering.) but is cute and the book marks are all set on black shiny card stock pages that really help to make the colors pop. In addition, the book marks themselves are standard size (approx.. 6 inches or so).Recommendations: Great gift for any Louis Comfort Tiffany lover, lovely for readers, book lovers, can be gifted individually (I'm thinking of using them as stocking stuffers) or along with a book.Pros:

Beautiful, colorful, creative, inspirational, sturdy card stock and vibrant vivid colors, decent price point as well.Cons: I wish there were at least a few for coloring; I suppose I could trace some?4 of 4 people found the following review helpful. Altho they're perforated, I used papercutter or scissors to trim edges if needed. Great price for a dozen, would've cost a lot more to buy them individually at a store.0 of 0 people found the following review helpful. Be Careful Removing These from the Booklet but Beautiful OtherwiseBy savsmomVery pretty but realize this "book" is only a few inches and really a booklet. I would give five stars but you have to be very careful removing them and the edges will need trimming. That done however, if you have a laminating machine, they do make really nice little gifts for your bookworms either several at once as a gift or as a little extra something tucked into a book you're gifting.

A dozen glorious designs, based on the stylish, nature-inspired stained glass creations of Louis Comfort Tiffany, add a touch of elegance to any reading material.
