Krause PublicationsBy CustomerI was very happy with book of autos, but VERY unhappy with Krause Publications for denying me to use the pictures in a little newsletter I put together for our seniors that remember the cars.1 of 1 people found the following review helpful. A must for any old

car enthusiast. By Mike Great book. Covers most models of vehicles and some you may never have heard of. Read one many years ago and had to get one for myself. A good start to car spotting. Manageable size, great illustrations, car specs, etc. A fun read for any car enthusiast. 0 of 0 people found the following review helpful. True gearheads love! By Kit E. Tad Burness' Auto Album, a nationally syndicated newspaper feature seen by millions since 1966, transported readers to the autos of yesteryear. Now fans can trace over 200 years of automobile history and progression with more than 490 automobiles compiled from the Auto Album. Each automobile illustration is hand drawn. The accompanying text tells an interesting story about the car, manufacturer, or time period. None of these have ever before been reproduced in book form. Readers will take a nostalgic trip with the cars they remember and discover a few they may have never seen before. Automobile coverage includes classic domestic cars, pilot models, and imports made from 1784 to 1985. Specific cars can easily be found using the convenient index.
