Victorian Fashion Accessories CD-ROM and Book (Dover Electronic Clip Art)

Dover : Victorian Fashion Accessories CD-ROM and Book (Dover Electronic Clip Art) before purchasing it in order to gage whether or not it would be worth my time, and all praised Victorian Fashion Accessories CD-ROM and Book (Dover Electronic Clip Art):

2 of 2 people found the following review helpful. Victorian Fashion AccessoriesBy OriannaIf you're interested in Victorian things, or historic costume, this is a good book to get. Similar to the book, "Shoes, Hats and Fashion Accessories: A Pictorial Archive, 1850-1940 (Dover Pictorial Archive Series)" this is a pictorial archive of images from fashion magazines of the past. It's filled with images of shoes, hats, scarves, gloves, stockings, parasols, collars, cuffs, purses, and more. Some of the images overlap with the above-mentioned book, but as far as I could tell, a lot were new and unique. It covers the years 1850 to 1900, though some years get more coverage than others.If you're into

Victorian costume, it's a treasure trove of ideas and possibilities for items to complete your outfit. If you have a Victorian-themed blog or website, you can use the images as illustrations, or as a logo. Like many Dover books, the images are copyright-free, meaning you can do whatever you like with them, with the stipulation that you don't use more than 10 images per publication or project. I still haven't figured out what that means as far as a website goes: do I only get 10 images for the whole site, or can I use up to 10 per blog post, webpage, or article that I post on my website?Some reviewers had trouble with the CD-ROM not working, but they must have fixed the problem because I had no issues. I was able to view the images from the CD with no trouble.The only thing that would make this book better would be a detailed description of each item shown. But, that would be a huge undertaking, so I can understand why they didn't bother. Anyway, it's a great book if you need images of Victorian accessories!1 of 1 people found the following review helpful. Lots of great images!By Christy WhitcombThis cd contains lots of wonderful period images. I have tried to use them in several craft projects, but have failed miserably in having them print to my satisfaction. I have yet to decide if the problem is me or the resolution of the pictures on the disc. However they are wonderful pics, and I am sure I will eventually find a use for them, so I am still very happy with my purchase even though I wasn't able to use it for the project I wanted to!0 of 0 people found the following review helpful. Five StarsBy YuliaWork as supposed to - best one

This collection of vintage images spans 50 years of fashion history from the mid-19th century to 1900. Includes cuts of high-topped footwear, elegant hats and parasols, fans, shawls, jewelry, and much more. Perfect for use in catalogs, brochures, newsletters, and other print and craft projects. 683 black-and-white illustrations.
