My train bookBy krdaveThis is a good book for researching old trains. It is reasonably priced and I found exactly what I had (a 5 car 1950 Lionel set) , and it gave me a price to work with, however I wouldn't take that amount. But, that's just me. It might be fine for someone else.0 of 0 people found the following review helpful. Keeps you on Track !By Edward TaylorI found this to be a great source of information as i am new to model trains. Being able to sort out and identify each model has helped in purchases and also determining the time line I want to collect.

There is royalty in various facets of life, and when it comes to collectible toy trains - Lionel is it. This second edition of Warman's Lionel Train Field Guide, with its pricing and identification data for 2,000 trains and 500+ color photos, delivers the kind of details suitable for fitting of a portable and pocket-sized guide of the world's most famous line of toy trains. Plus, you gain access to a collection defining rarity rating system.
