I wanted to avoid buying more equipment - namely a sectional tension box thingy and spool rack- to do sectional back to front warping on my macomber loom. So with the method in this book, I did front to back and it worked well.0 of 0 people found the following review helpful. Good bookBy AnneThis is a used book, it arrived in a quickly and is in very good condition. I am very happy with this discontinued book. I am currently reading it over...it is written in an easy to understand manner with great drawn illustrations. This book was exactly what I was looking for, providing information that is hard to find and not in other weaving books. I look forward to warping my own loom eventually.0 of 0 people found the following review helpful. This helped me a great deal in learning on my ownBy MJThis book is out of print, but worth the price if you can find it. I have been trying to find someone to teach me how to warp my loom, but had no luck. This helped me a great deal in learning on my own.

THIS BOOK IS A COLLABORATION OF TWO UNIQUE PEOPLE, CAY GARRETT AND DOROTHY BEEBEE, ONE A WEAVER THE OTHER A GRAPHIC ARTIST. TOGETHER THEY HAVE FORMER A UNIQUE BOOK THAT WILL GUIDE YOU THROUGH INTRO WARPING AND THEN INTO WEAVING. A GREAT GUIDE
