I went by the title of the book and assumed that it included charts for handweaving for churches. It does not. It does give a little description about what others have done and does give some instruction on how to make an item. But there is nothing in the book about weaving the fabric. In my opinion, the authors of the book gave it a misleading name. I was able to return the book and the seller was very courteous and timely in providing a refund. I had no complaints about the seller - only the book.0 of 0 people found the following review helpful. Now I would like to attempt to make a stole for a frined ...By WriterI have gotten in weaving and made several scarfs and shawls . Now I would like to attempt to make a stole for a frined of mine who is studying to be priest. Excellent resources Guidance.0 of 0 people found the following review helpful. Five StarsBy Deborah PurdyA great reference for Liturgical Art

"This book is for everyone involved in the use and creation of liturgical textiles."
