World War II Posters

David Pollack : World War II Posters before purchasing it in order to gage whether or not it would be worth my time, and all praised World War II Posters:

This book is a visual survey of posters printed by the United States, the Allies, and the Axis, and offers an overview of the various categories of propaganda posters created in support of the war effort: recruiting, conservation, careless talk/anti-espionage, bond/fundraising, morale, and more. With posters from all combatants, here is a look at propaganda used as a tool used by all parties in the conflict and how similar themes crossed national borders.
