GREAT BOOK!By JUDYMY HUSBAND USES THIS BOOK ALL THE TIME FOR CHECKING PRICES AND VALUES ON WATCHES THAT HE WANTS TO BUY OR WANTING TO FIND OUT MORE ABOUT THEM. GREAT BOOK!0 of 0 people found the following review helpful. Decent not great.By MESQBook was out of date but does give you a decent history of the major watch

houses. All in all decent but not great. 3 of 7 people found the following review helpful. From 2005, the new 2010 edition is available. By Michael A. Duvernois. Not sure why books like these show up above the new edition on a search... Anyway, *Wristwatches: A Handbook and Price Guide* is the new edition.

Now in its revised fifth edition, this book is designed for the collector, with an historical survey, a description of how mechanical wristwatches work, and a glossary. Updated price ranges for various wristwatches are included, along with a chapter on fakes, knock-offs, and hybrids. Even a chapter on the popular Swatch watches is included. Information on the preservation, care, and repair of watches rounds out the volume, making it an excellent reference for novice and experienced collectors alike.

About the Author. Gisbert L. Brunner and Christian Pfeiffer-Belli are both leading international authorities on watches and clocks. They have written many books on the subject.
