Wristwatches: History of a Century's Development (Schiffer Book for Collectors)

Helmut Kahlert : Wristwatches: History of a Century's Development (Schiffer Book for Collectors) before purchasing it in order to gage whether or not it would be worth my time, and all praised Wristwatches: History of a Century's Development (Schiffer Book for Collectors):

The mechanical wristwatch is a cherished treasure. This newly revised book is designed for the collector, with a historical survey, a description of how mechanical wristwatches work, and a glossary. Updated prices for various watches are included, along with a chapter on fakes, knock-offs, and hybrids. Information on the preservation, care, and repair of the watch rounds out the volume, making it an excellent reference for novice and experienced collectors

alike.
