It's simple, tells an easily understood story, and does it with a whimsy that young ones love. That plus there's a nice lesson about jealousy and honesty.I just bought two more copies for the mothers of the other young ones in my life.If you're looking for a good children's story, this is a great choice.2 of 2 people found the following review helpful. Mr. Moopoo is Class A Reading for young children!By Donna PotterWhat an adorable children's book! Beautifully and interestingly illustrated. Mr. Moopoo teaches early readers an important life long lesson, the value of integrity and truth. It also reminded me of a magical little teddy I knew growing up. The Shuco yes-no Teddy with his little eyeglasses like Teddy Roosevelt's, had special healing powers when used by my grandfather whenever I was sick. He was not a toy and I seldom got to hold him; he had been a gift from my grandfather to my grandmother when they were dating or "courting" as it was called back then. I

look forward to the next Mr. Moopoo by Beth Herman! 2 of 2 people found the following review helpful. A sweet story for young folk by Beth Herman By A. Petrone The story of Mr. Moopoo, the very human Teddy Bear, is actually a morality play for little ones. He shows very human traits of wanting to be "somebody", but using unfair tactics to win over his potential teddy bear competition. The story ends with his noble side showing a very human concern for the sad feelings of the "bear-painter" which allows him to do what's right.

In his first adventure, the adorable and cuddly Mr. Moopoo springs to life as the favorite model of teddy bear portraitist, The Bear Painter. He becomes a valuable part of the family in more ways than one, and learns important lessons about honesty, jealousy, and love along the way. Beth Hermans whimsical drawings add charm and humor to her delightful story; a book young children and teddy bear fans of any age will love, and adults will love reading aloud. Mr Moopoo is the bear of the hour, and You, Me and Mr Moopoo Makes Three is delighting young children as well as the young at heart.

About the Author Before I began painting in 1999, I had been a social worker in New York City; sold shirts and ties to Wall Street brokers (one of whom I married!) temporary and permanent staffing to law firms and computer training to the U .S. Government. I worked as director of an adult education school; a freelance business columnist, fashion journalist, publicist and model. Choice of medium was never an issue for me. I am at heart an oil painter. The question of subject matter proved more challenging. After painting a series of self -portraits and high fashion shoes, I decided to look outside of myself and my closet, and become a bear portrait painter. The teddy bear paintings are well travelled; having hung in galleries and shows around the country. In an attempt to give my bears a wider audience, I decided to produce a childrens book. Mr. Moopoo had become a larger and larger personality in our house, so he thoughtfully suggested the book be about him. I enjoy working with teddy bears because of the texture of their fur, the round shapeliness of their bodies, and their rich facial expressions. They also talk less and take fewer coffee breaks than other artists models.
