Youngstown: Postcards From The Steel City (OH) (Postcard History Series)

Donna M. Deblasio : Youngstown: Postcards From The Steel City (OH) (Postcard History Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Youngstown: Postcards From The Steel City (OH) (Postcard History Series):

0 of 0 people found the following review helpful. Very small, dimensionally.By Christopher A. OlsonI bought this as a gift for a friend that is into the history of Youngstown. I was disappointed the size of the book. It is a very small book, both in size and page. Please pay attention to the dimensions of the book when looking to order.I was thinking this

would be more like a 'coffee table book' as it deals with pictures. As for content i cannot review as i didn't go through it from cover to cover. 2 of 2 people found the following review helpful. Big Steel To a great city By irishmanmy great grandfather was a puddler in the early steel mills, the book took me on a journey of the development of the steel mills in my hometown of Youngstown, Ohio. I enjoy the book so much, great town and great people. Irishman0 of 0 people found the following review helpful. Very nice book. By RHF111 Excellent pictures and descriptions.

Youngstown, Ohio was a rapidly growing industrial city in the early 20th century. In 1900, the city had a population of about 45,000; ten years later, it nearly doubled to 80,000, and by 1920 had reached 120,000. This phenomenal growth was reflected in a number of structures that dotted the city's skyline, including the Mahoning Bank Building, the Masonic Temple, and the plants of three major steel companies along the banks of the Mahoning River. Youngstown also had new places for its citizens to play during this period-Idora Park, Mill Creek Park, and Wick Park. And this was all preserved for the future through another early-20th century phenomenon-the postcard. Over 190 vintage postcards illustrate this book, which will bring the reader back to the era when Youngstown was rapidly becoming the third largest steel producer in the nation.

About the Author Author Donna M. DeBlasio is a native of Youngstown and an assistant professor of history at Youngstown State University who specializes in the social history of 20th century America. She is also Director of the Center for Historic Preservation at YSU.
