Your Notebook! My favorite perfume is horse

Mary Hirose : Your Notebook! My favorite perfume is horse before purchasing it in order to gage whether or not it would be worth my time, and all praised Your Notebook! My favorite perfume is horse:

A special journal dedicated to a very special animal, and to those who are fortunate enough to share a part of their

lives with these beautiful creatures. Take this journal to the barn with you, write down your plans for riding, dates, schedules, diet notes, recipes for home made fly repellent and bug spray. How about turn out schedules and mucking dates? The cover of this journal is sturdy enough to be thrown down on some good timothy hay and will be waiting for you after your horse has his or her grooming is done. Horse first! write after... xoxo 5.5 x 8.5" tucks perfectly into your tack box.
